PREFACE.

You can use many words to describe the BMW brand and its fans. For me, the ones that describe it the best and as concisely as possible are the words probably known worldwide: 'Sheer driving pleasure' and 'Make life a ride'.

For some people, they may only be slogans. But for the BMW Club community, those words are more than that. A lifestyle, a way of living, a way of being together. The BMW fan base has existed for many decades. Some BMW Clubs and their members have even celebrated half a century of being together. I have heard of strong friendships that came to life, partners that met and families that were founded, all due to one shared passion.

I am very honored that, as head of BMW Group Classic, a part of my job is taking care of BMW Clubs. Seeing such a shared passion in this unique way, all under the blue-white emblem, is more than inspiring.

This fan base managed to come together on an international and professional level – with personal engagement and the willingness of many volunteers.

For four decades now, the BMW Clubs International Council has been dedicated to the worldwide BMW family. Thousands of enthusiasts and hundreds of BMW Clubs shape this community and form an exceptionally large and proactive international association. Here in Munich and at all BMW subsidiaries around the globe, we are proud to say that the BMW Clubs International Council is the biggest network of clubs worldwide representing the brand of an automobile and motorcycle manufacturer.

Apart from the Antarctic, the BMW Clubs International Council can therefore proudly proclaim that BMW Clubs exist virtually everywhere in the world. I welcome you to explore the BMW Club world yourself in this book.

A handwritten signature in black ink, appearing to read 'Helmut Käs', written in a cursive style.

Helmut Käs
Head of BMW Group Classic

BMW is one of the world's most recognized and respected automakers. For almost a century, the company has manufactured motorcycles and automobiles that have captured the public's imagination and the loyalty of their owners. It is no surprise that for very nearly that long, BMW enthusiasts have bonded together to form clubs.

BMW motorcycles, cars and sport activity vehicles are well-made, comfortable, safe, stylish, and reliable. With excellent performance and precise, sporty handling, they are extremely fun to drive. These qualities generate an enthusiasm for the marque that owners and aficionados, quite frankly, have a hard time keeping to themselves.

Many BMW drivers and riders feel compelled to share their enthusiasm for their Bavarian-bred machines and have found the best way to do that is by starting or joining a BMW Club. For hundreds of thousands of enthusiasts who have fun with their BMWs, the enjoyment is amplified by sharing it with like-minded friends. Whether it's high-performance driving, cruising, detailing, modifying, racing, do-it-yourself maintaining, road tripping, or just socializing, the marque in general and BMW Clubs in particular help create a passion for BMWs and generate friendships and bonds between those who appreciate them.

The BMW Clubs International Council helps new BMW Clubs get started and existing clubs get bigger and better. It acts as the conduit between BMW enthusiast organizations and the BMW Group. This beautiful book tells you about our member clubs and where they are located around the globe. It proves to BMW Club members everywhere that you are all part of a large and expanding international community of fellow BMW enthusiasts who share your passion for the marque.

Welcome to the worldwide community of BMW Clubs.

Scott Blazey
Chairman
BMW Clubs International Council

CLUB STRUCTURE.

ACTIVE CLUB LIFE.

There are around 800 official BMW Clubs worldwide, with over 230.000 members between them. They bring to life their passion for the BMW Group, with their commitment present all over the world. For car and motorbike fans alike, the community feeling is what counts. And this has an influence beyond the clubs themselves. Many of the individual, standalone BMW Clubs are committed to good causes, raising money and using their presence and popularity to support charities. This social commitment is one of the main guidelines behind every BMW Club.

ALL OVER THE WORLD.

There are BMW Clubs in almost every corner of the world. They are subdivided into the regions of Europe, America, Africa, Australia and Asia-Pacific, which themselves are divided into international and national umbrella organisations. Each individual BMW Club and BMW Motorrad Club is a standalone entity; their focus and orientation are independent of the brand. The age of the vehicle is not important. With everything from historic and modern classics to new and used cars, it's the passion for the blue and white logo that brings fans together.

BMW Classic and Type Clubs play a special role and are covered by an internationally active umbrella organisation. These clubs are devoted to specific models or ranges and put their heart and soul into the maintenance and restoration of classic BMW vehicles, some of which are very rare.

INTERNATIONAL COUNCIL.

A STRONG COMMUNITY.

The BMW Clubs International Council (BCIC) serves as an interface between the BMW Group and the official BMW Clubs. The BCIC is made up of 20 delegates. 16 seats are allocated to the international BMW Club umbrella organisations and four to BMW Group Classic.

The precise composition of the BCIC is determined by member numbers in the individual regions. Additional members of the BMW Clubs International Council are independent observers, who support the BMW Club umbrella organisations during the Council Meeting. The BCIC was founded in 1981 by Helmut Werner Bösch and Dr Horst Avenarius, who at the time respectively held the positions of President of BMW Clubs Europa e. V. and Head of BMW Corporate Communications.

WITH IMPORTANT OBJECTIVES.

To keep up the tradition, the BMW Clubs International Council holds an annual meeting. The Council is steered by the BMW Clubs International Council Board, which is elected democratically at regular intervals by the BCIC. It consists of one Chairperson supported by three Vice Chairpersons focussing on the Vintage, Automobile and BMW Motorrad sectors. The Board also draws up club development strategies and supports communication between the Council's members. The BMW Clubs International Council promotes exchange between the BMW Group and the official BMW Clubs. Contact with partners all over the world is another important role taken on by the BCIC. The main objective is to pass on the passion for BMW.

A BIG THANK YOU.

We would like to thank all our former and future Chairpersons, Vice Chairpersons and active members of the BMW Clubs International Council for their constant commitment to the BMW Group. Special thanks goes to the current board members: Scott Blazey (since 2022), Dr Bernhard Knöchlein (since 2003), Julio Reyes (since 2018), Trevor Dean (since 2021). Thank you from the bottom of our hearts.

BMW CLASSIC & TYPE CLUBS INTERNATIONAL.

**BMW Classic &
Type Clubs
International**

In January 2003, the BMW Classic and Type Clubs International Section began providing an organisational umbrella framework for all official BMW Clubs that focus on classic BMW cars and motorcycles. The umbrella covers a wide and diverse spectrum of vehicles from pre-WW2 models to the present, ranging from the first BMW vehicle, the 1923 R32 motorcycle, to the latest modern classic, the 2003 E52 sports car (Z8). The International BMW Classic and Type Club Section currently represents 30 clubs with over 12.000 members located throughout Europe, Africa, North and South America and the Far East. The tasks and organisation of the Section were constitutionalised in a meeting in Schwäbisch Hall by all member clubs on 20 January 2008, with the subsequent approval of BMW AG.

Our motto:

Providing help and information to our members.

What makes our community special:

The fact that our members have remained loyal throughout the decades. When the club was established, the E30 was still available as a new convertible and touring. The club and members have lived through the entire life cycle from the new car to the coveted classic.

Our most important club event:

Annual meeting every June.

A moment that left a lasting impression on our club:

Our motto:

We want to support owners and friends of the E36/E46 Series in maintaining their original cars, e.g. by sharing knowledge on upcoming issues and helping to solve them. In addition, we organise regular local meetups and have an annual meeting at alternating locations.

What makes our community special:

An active community uses the forum on our website bmw-club-e36-e46.com, providing quick support to members and independent forum users. Socialising among club members is also essential to our club life.

Our most important club event:

The annual meeting in summer brings club members from Europe together, fortifies the 'us' feeling, is a lot of fun and builds friendships between club members, including two bigger day trips along scenic and interesting routes.

What excites us most about BMW:

BMW cars are about 'Sheer Driving Pleasure' on well-known routes with long-lasting, economical cars. It's more than one thing. It's the feeling of driving one, hearing the sound, enjoying the design and, of course, the history of this brand.

A moment that left a lasting impression on our club:

Every time we get together, it's impressive to see how many people have built up and established their love for the BMW 3 Series. To see all these well-kept cars is a great moment.

Our motto:

Making sure this vehicle stays a part of cultural heritage of its time. The BMW Coupé was made for 14 years. We aim to show society that classic cars are a symbol of sustainability. Cars can easily get to be 30 years or older. We love classic cars.

What makes our community special:

Our club is dedicated to preserving and caring for this vehicle. We also offer a setting for anyone that wants to share experiences, go on drives and exchange technical advice. If you own an E24, you should get to know the advantages of the club and join us.

Our most important club event:

The annual meetups. The 6er Club is one of the few clubs to have a spring and autumn meetup instead of a general meetup. They always take place in a different German-speaking region to be able to get to know the area there.

What excites us most about BMW:

The pleasure of driving! That's also why we get together twice a year for a big nationwide meetup, so we can explore new parts of Germany together. No other club does that.

A moment that left a lasting impression on our club:

A BMW is a sporty car. The two-door 6 Series Coupé shows off this sportiness perfectly. That's why this BMW model was in production for longer than any other.

Founded in 1976 by 17 enthusiasts with a vision: keeping classic cars and motorbikes on the road. Pre-war and vehicles from the 1950s were the start of our rolling museum. Car and bike lovers in one club share the passion for the BMW brand.

What makes our community special:

What excites us most about BMW:

The BMW logo. It looks like a graphic aeroplane propeller. Fire it up and sheer driving and riding pleasure comes alive. You can feel the roots in aeronautical engines in every single vehicle.

A moment that left a lasting impression on our club:

We remember many lovely club activities but also one incomprehensible situation. In the year 2000, we lost Christian Eich, first president of BMW Mobile Tradition. A supporter and club member. 'May he travel in a free world' (Neil Young).

Our motto:

The BMW 3.0 CSL is the very first of the BMW Motorsport cars and the beginning of a great story. We preserve this rare species and work to ensure that both road and competition cars can be used for what they were built for: driving.

What makes our community special:

Our members live all over the world; some see each other very rarely. But they all share the same passion, which makes socialising easy: every meeting almost instantly creates the family atmosphere of a 1970s paddock.

Our most important club event:

We attend historic racing events all over Europe and usually enter our own racing cars. Every August, we go to the Oldtimer Grand Prix at the Nürburgring. We also regularly take part in races at Le Mans, Spa, Zandvoort, Monza among others.

What excites us most about BMW:

BMW has a long and successful tradition in motor sport. Particularly the touring cars often attract very young people and instil a life-long passion for the brand. And the M stripe design is just brilliant.

A moment that left a lasting impression on our club:

In 2001, we brought an original BMW 3.5 CSL Group 2 back to life. Since then, it has seen many racetracks. Seeing this car again in its 1975 livery and hearing it roar, sing and scream for the first time was an experience no one will ever forget.

Our motto:

Driving and preserving the world's most exciting saloon car. Building and maintaining an international community of BMW E3 enthusiasts. Campaigning these wonderful cars to finally get them the attention and reputation they deserve.

What makes our community special:

More like a community of people who accidentally love the same cars than a mere car club. Lots of members regularly contribute to the club. At any event, there are always more volunteers than there is work. And every farewell takes ages.

Our most important club event:

Annual gathering 'Internationales BMW E3-Treffen', held every September, even in 2020 and 2021. Varying locations all over Germany and its neighbouring countries. In recent years, attendance has risen from about 30 cars to a good 40.

What excites us most about BMW:

For years, BMW has been developing particularly active vehicles that arouse passion when driven and seen. Across the entire range of production, a special relationship has developed with drivers and users.

A moment that left a lasting impression on our club:

Our meeting to mark the 50th anniversary of the unveiling of the BMW six-cylinder models at the original site in Rottach-Egern/Bavaria. Almost 50 members in period dress crowded around the cars, lined up just as BMW had presented them in Sept. 1968.

BMW Clubs
Africa

Club life in Africa can be traced back to 1981 when the BMW Club of South Africa was formed in Johannesburg, representing both cars and motorcycles. In 1983/4 the club became a member of the International Council. The umbrella club for Africa was formalised in 1989 and restructured in 1994, and Clubs Africa was created to be the representative body of its member clubs. We have clubs in South Africa, Namibia, Kenya, Nigeria and Ghana. Each club does their own special events each year and these are published in the events section of our Clubs Africa website: bmwclubs.africa BMW Clubs Africa seeks to promote and further interest in BMW vehicles and products in Africa.

BMW Clubs
Europa

BMW Clubs Europa e.V. (BCE) unites many countries in Europe from east to west. The different cultures make the work very exciting. Normally, there is always a big Europe meeting on Ascension Day weekend. BCE is the successor of the original global federation of the BMW Clubs, which was created on 20 May 1961. In order to do justice to all clubs worldwide, a new route was taken in 1981 and the International Council was formed, founding the present BCE in February 1981 in Hockenheim. At first, all clubs were supervised directly by BCE. At some point, as 333 clubs are now part of the BCE, umbrella organisations were founded in order to have local contacts and to make administration easier. The slogan 'Sheer Driving Pleasure', which has existed since 1965, still unites the clubs today. 'One passion, one community' is one of the most beautiful expressions to have been created.

**What makes our
community special:**

The way we share our passion for motorcycles with our families and friends, travelling around our country and sometimes outside of our country. Always safely and respecting nature, ourselves and others.

**Our most important
club event:**

The East to West Ride. A ride from the beginning of the Pan-American Highway on the eastern border of Panama with Colombia to our border with Costa Rica on the western border. The ride begins at sunrise and ends at the west border near sunset.

**What excites us most
about BMW:**

First the quality and the comfort of the bikes. The spirit of motorbikes in our rides and our lives. Being a biker becomes part of your life.

**A moment that left a
lasting impression on
our club:**

Our first East to West Ride. It shows how well organised we are, our teamwork and the quality of the rides we organise for our riders and for other motorbike riders that participated on it.

BMW CLUBS IN NEW ZEALAND.

BMW is a much loved brand in New Zealand. The BMW Motorcycle Club Aotearoa NZ was founded in 1975 and the BMW Car Club NZ a few years later in 1982. Combined membership is approximately 1,200 across both clubs. Both were formed to provide the opportunity for enthusiasts of the BMW brand (motorbikes and cars) to get together to take part in collective rides, rallies and social events and to enjoy the comradeship that comes from a shared passion.

The car club has recently celebrated its 40th anniversary in 2022 and the motorcycle club holds three major events each year including an annual AGM rally. Both clubs provide regular updates to their membership through newsletters and magazines, promoting safe and responsible driving experiences and driver and rider education. The memberships are growing nationally and we are encouraged by the ongoing enthusiasm and passion for motorbike and car owners to enjoy their vehicles as they travel around New Zealand.

Our motto:

To promote the BMW marque to owners and prospective owners, or enthusiasts of the BMW marque in New Zealand.

What makes our community special:

The people who become members of our club are all enthusiasts, which makes them special in our eyes. We all enjoy all types of club events and appreciating our BMWs, old or new.

Our most important club event:

Our National Festival of BMW Car Club New Zealand held in March each year. This is an opportunity for all members and chapters to come and join together to celebrate our enjoyment of the marque.

What excites us most about BMW:

The engineering excellence, the motor sport and the wonderful people we have met in New Zealand and around the world through the BMW brand and the clubs.

A moment that left a lasting impression on our club:

No lasting highlight in particular. All our events have been great and they have all been special for their own individual reasons.

BMW MOTORCYCLE CLUB AOTEAROA NEW ZEALAND

BMW Motorcycle Club
Aotearoa New Zealand

Our motto:

Our vision is that the BMW Motorcycle Club Aotearoa New Zealand is the motorcycle 'club of choice' for those who own or have an interest in BMW motorcycles.

What makes our community special:

The camaraderie and participation of our members in the club's activities, and the dedication and passion of our members to the BMW brand, particularly our volunteers and Elected Members.

Our most important club event:

Our Annual Rally is the Club's premier event occurring on a weekend in January of each year, and includes the Club's Annual General Meeting. The Rally alternates between the North Island and South Island each year.

What excites us most about BMW:

BMW has built some cool bikes over the years. From adventure bikes to superbikes, tourers, and café racers, they offer something for all riders. What we'll see from BMW Motorrad in the future is highly appealing.

A moment that left a lasting impression on our club:

In 2015, the Club published a 92 page hard-cover book celebrating its 40th Anniversary.

OUTSTANDING COMMITMENT.

There are many clubs and individuals whose dedication is particularly impressive. It is thanks to their passion and commitment that the BMW Clubs and BMW Group enjoy such a great reputation worldwide. Their special services are honoured by the BMW Clubs International Council with various awards for clubs and individuals.

CLUB OF THE YEAR.

It's always very special when a club shows an exceptional commitment to the BMW brand or to individual BMW models. This could involve actively developing a community, organising publicity events or embracing social responsibility. The Club of the Year award recognises the outstanding services of a club and is an honour that is awarded to just one club each year.

FRIEND OF THE MARQUE.

Sometimes, however, individuals show extraordinary commitment that makes them stand out as ambassadors of the BMW brand, whether through their long-standing work for a club or by setting up their own BMW museum. These special people have more than earned their Friend of the Marque award.

PROF DR GERHARD KNÖCHLEIN BMW CLASSIC AWARD.

Awarded in memory of the founding president of the Mobile Classic e. V., Prof Dr Gerhard Knöchlein, this prize honours the conservation and promotion of the BMW story. Suitable candidates for the Prof Dr Gerhard Knöchlein BMW Classic Award are owners of BMW classic vehicles who have maintained them in immaculate condition and who make them accessible to the public, maintaining the BMW tradition for future generations.

THANK YOU TO ALL AWARD WINNERS.

We would like to thank all those whose dedication has made the BMW brand what it is today. All award winners are immortalised on the Wall of Honour at BMW Group Classic.

We received countless pictures for this book from many BMW Umbrella Organisations and BMW Clubs – ranging from rare BMW models to special moments at your meetings. There were so many pictures, we simply could not fit all of them into this book. In any case, a warm thank you to everyone who contributed pictures and offered us these colourful insights into your club life.
