1. AT A GLANCE.

We introduced our new BMW symbol in the spring of 2020. After more than 20 years of using our familiar logo, we now take yet another and clearly visible step into the automotive future with the modernisation of our appearance.

We would also like the BMW Clubs to accompany us on this exciting voyage for the benefit of a uniform appearance, to where the logos of the BMW Clubs will also be adapted to the new design until the end of 2021.
CHANGE OF THE BMW CLUB LOGOS.

Old

BMW Clubs Europa

New: transparent logo

BMW Clubs Europa

BMW Owners Club Motorsport des Quatre Lacs

BMW i8 Club International

BMW Motorrad FederClub Italia
Official BMW Club members identify strongly with the BMW brand and associate BMW products with their own values. As ambassadors and multipliers of the BMW brand and its products, however, they also bear responsibility for representing BMW in a way that is characteristic of the brand.

After all, the BMW brand is highly valuable, and such value must be protected. On the one hand this means adhering to certain shared basic rules, but it also means preserving individuality and setting oneself apart from other BMW Clubs.

The communication and design of BMW Clubs are geared towards the premium claim of the BMW brand.

The BMW Club appearance should be based on the premium claim of the BMW brand. The club must always be clearly recognisable as the sender. This means that every official BMW Club has a BMW Club logo and a BMW Club identifier which serve as seal of quality.

The individual BMW Club logo ensures recognition of an official BMW Club and is designed according to binding guidelines.

The BMW wordmark and the BMW symbol are registered trademarks of BMW AG. They may only be used as part of the BMW club logo. Any use of the BMW wordmark and BMW symbol outside the approved club logo requires prior written authorisation from BMW AG.

The BMW symbol never performs a utilitarian function and is never placed in positions or on objects which have a negative impact on the image.

Visuals must be of high quality in both content and appearance. Symbols with negative associations are to be avoided.

Whenever the term “BMW Club” is used throughout the document, exclusively official BMW Clubs are addressed. The usage of this guideline is obligatory for the official BMW Clubs within the BMW Clubs International Council.

These design guidelines have been developed in close collaboration with the BMW Club & Community Management. They outline the new appearance using examples for all the relevant media applications, are mandatory worldwide and apply without restriction to all communication and correspondence materials.
Please refer to the following section in order to find out about the importance of a uniform and reputable external image for the premium brand BMW, to get to know the new BMW symbol, and to obtain information on the protection status of our brand.
THE BMW CLUB APPEARANCE.
CONSISTENT ALL OVER THE WORLD.

The BMW brand is perceived as a **premium brand** all over the world. It is indispensable that this premium claim also be reflected in the outward appearance of all BMW Clubs worldwide. The layout of the BMW Club logo is thus subject to standardized guidelines, making the official BMW Clubs all over the world easily recognizable as such and as part of our global family.

The individual layout of the respective logo in turn emphasises the independence of each individual BMW Club.

### Basics

**Why do strict rules apply to the BMW Club logos?**

### Examples

*Please note* that the logos shown in this document are conceivable implementations of the changes. These examples may currently neither be confirmed nor used by the respective BMW Clubs.

THE BMW CLUB APPEARANCE.
CONSISTENCY WITHIN THE INDIVIDUAL BMW CLUBS.

The appearance of the brand is contemporary and striking. It is essentially uniform but offers clubs scope for differentiation.

There are clear rules so as to ensure compliance with the BMW brand’s premium claim. The rules set out here help create an individual BMW Club appearance.

Sign up now!

Far far away, behind the word mountains, far from the countries Vokalia and Consonantia, there live the dummy texts. Separated they live in Bookmarksgrove right at the coast of the Semantics, a large language ocean. A small river named Duden flows by their place and supplies it with the necessary regelialia. It is a paradisematic country, in which roasted parts of sentences fly into your mouth.

Detailing the CI basics for official BMW Clubs.

Version 2.1.1 | Last revised July 2021 | Page 8
The new BMW symbol is available on request: bccm@bmwgroup-classic.com

Only the official file at hand may be utilised for the creation of a BMW Club logo.

A transition period until 31.12.2021 applies for the use of the former BMW Club logo (the old BMW symbol). From 01.01.2022 on, only the new BMW Club logo (featuring the new BMW symbol) will be permissible.

Since the introduction of the BMW emblem in the autumn of 1917, it has been revised in more or less regular intervals. It was modernised to adapt it to the respective times, whilst at the same time maintaining and strengthening the character of the brand.

After more than 20 years, the BMW graphic logo again experienced an “update” in March of 2020. However, this is much more than a mere design update. As an essentially modernised BMW brand appearance, it reflects the importance of the BMW brand for mobility and “sheer driving pleasure” in the future and is a synonym for the conversion of the BMW brand into a “Relationship Brand”.

With the candour and clarity the new transparent BMW symbol emanates, it entices more than ever before to become a part of the World of BMW.
THE NEW BMW SYMBOL AND THE BMW CLUB WORDMARK. 
PROTECTING A DISTINGUISHED BRAND.

Use and protection of the BMW symbol

The BMW symbol is registered worldwide as a trademark. It may only be used with the permission of BMW AG. Official BMW Clubs are granted permission to use the BMW symbol only as a part of their respective BMW Club logo. Any other uses of the BMW symbol require prior written authorisation from BMW.

The modification of the form or the colour of the BMW symbol, the use of the BMW symbol as a decorative or functional element, the combination of the BMW symbol with graphics or text or its use within continuous text as a substitute for the name “BMW” will not be permitted.

Use and protection of the BMW wordmark

The BMW wordmark is registered worldwide as a trademark. It may only be used by official BMW Clubs as part of their approved Club name.

Similar to the BMW symbol, the BMW Club wordmark is subject to worldwide copyright protection and may only be used as a sender by official BMW Clubs and only to the extent permissible.

The term BMW Club unmistakably indicates that the club is an official BMW Club. The brand “BMW” always appears first and written in capital letters, followed by the name of the club. The club name itself shall always be written in uppercase and lowercase letters.

BMW Club / BMW Clubs / BMW [xyz] Club are fixed terms which cannot be altered. As a representative of BMW products and services they are to be used with the greatest of care.

In some cases, the term BMW Club can be expanded or linguistically adapted (for more information please see next page).
3. THE BMW CLUB LOGO.

A detailed explanation of the correct designation of a BMW club and the layout of the BMW Club logo.
The BMW Club Logo

BMW Club logo
The “transparent” version of the BMW Club logo (white text, white lines, blue and white version of the BMW symbol) is to be used whenever possible.

Only if not possible (e.g. because of a pattern, a restless or a white background), please use the “fallback” version (see page 14).

Please note that the logos shown in this document are conceivable implementations of the changes. These examples may not be currently confirmed or used by the respective BMW Clubs.

The BMW symbol is a promise of quality and stands for mobility at premium level.

The Name of the club (containing the term BMW Club / BMW Clubs / BMW [xyz] Club) clearly identifies the club as a member of the official BMW Club Organisation. It always appears in the top line, extending at maximum to the second line. A more detailed specification is provided in the remaining lines (e.g. a region or a section).

The BMW Club signet has a fixed aspect ratio of 10:4 and appears in a prominent position, directly below the club name.

Every BMW Club is required to create a master of both, the transparent and the fallback version of their individual BMW Club logo for approval by BCCM.

For some BMW Clubs, the BMW symbol may be supplemented with the symbols of BMW M or BMW i or the wordmark of BMW Motorrad (see page xx).

The so-called pairing may be utilised only by clubs with the respective clear reference and the explicit approval of BCCM.

BMW Car Club of Bavaria (containing the term BMW Club / BMW Clubs / BMW [xyz] Club) clearly identifies the club as a member of the official BMW Club Organisation. It always appears in the top line, extending at maximum to the second line. A more detailed specification is provided in the remaining lines (e.g. a region or a section).

A more detailed specification is provided in the remaining lines (e.g. a region or a section).

Version 2.1.1 | Last revised July 2021 | Page 13
### Recommendations for the design of a signet

**Do**
- The BMW Club signet always features a square picture with an aspect ratio of 10:4 (width : height). The background of the mark is always either white or coloured; transparent elements are not permitted.

**Don’t**
- Text elements within the BMW Club signet are generally permissible, the BMW Club name may, however, not be a constituent element of the BMW Club signet (no duplications).
- Vehicle signage and any other BMW Brand Identity elements (including BMW i, BMW M, the BMW M brand colours or similar) may not be used.

### Notes on reproducibility

It is imperative that the motive be chosen so that a high quality reproduction (e.g. on merchandising articles) will be possible. Ideal would be abstracted and planar elements with clear contours (no gradations and soft edges). Photographs, thin lines, and detailed motives are unsuitable and should be avoided.

### Heraldic figures

No use of political, racist or sexist symbols.

Exception: Crests or flags of your own country or of your own region or city/town may be used, as far as this is permitted under local laws (it is the Clubs’ responsibility to ensure compliance in this regard).

BMW Club signets already used prior to the changeover shall benefit from the grandfather clause and will have to be adapted to the new page formatting only. The approval of the adapted version as well as that of newly designed BMW Club signet is the responsibility of BCCM.
CONSTRUCTION OF THE BMW CLUB LOGO.
STRICT DIMENSIONS ENSURE PRECISE IDENTIFICATION OF THE SENDER.

Important:
Only original digital masters of the BMW symbol may be used for the reproduction of this logo.

The basic parameter for all dimensions is the diameter of the BMW symbol (x).

Text block:
The font size (in pt) corresponds to 1 1/4 x (in mm).
The resulting height of uppercase letters is thus 1/3 x.
The line pitch is 1/2 x.
Typeface: BMW TypeNext Bold for the club's name and BMW TypeNext Regular for the name affix.
The character spacing is always 0.

BMW Club signet and horizontal lines:
The size of the BMW Club signet is 5 x * 2 x.
The width of the two lines corresponds to 5 x,
the line thickness is 0.05 x.

Distance between the elements:
The distance between BMW symbol, lines, text block
and BMW Club signet is 1/2 x each. With this, the text block is always considered a 3-line text, even if
the text’s actual length is only 2 lines. In other words, the overall height, the position of the BMW Club
signet and of the lines is always identical and thus independent of the number of lines.

Fallback version:
If the logo (e.g. in order to provide a better contrast on
a restless background) is placed within a white “box”,
its outer edges on all four sides will project 1/2 x over
the actual logo.

Pairing (BMW M, BMW i, BMW Motorrad):
The combination of BMW symbol and “BMW M”,
“BMW i” or “BMW Motorrad” sports a fixed spacing
that may not be altered (see page 15).

The transparent version of the BMW Club logo shall be used whenever possible. It contains the BMW symbol that features a white line and white BMW letters. Accordingly, lines and texts and all other texts on the page (including headlines) shall also be white.

Only if the BMW Club logo is placed on a purely white background (or has to be placed within a white box), the “fallback” version of the BMW symbol that features a dark grey line and the letters “BMW” in dark grey (70% black or RGB 111 / 111 / 111) shall be utilised. The horizontal lines and the text shall be finished in the same colour shade (70% black or RGB 111 / 111 / 111), as well as all other texts on the page (including headlines).

Caution!
The two BMW symbols differ not only in colour. Consequently, the colour of the letters “BMW” and of the outer ring may never be changed arbitrarily, but the correct original file will always have to be utilised.
CONSTRUCTION OF THE BMW CLUB LOGO.
PAIRING (BMW i / BMW M).

Paired logos may be utilised only by clubs with the respective clear reference. Creation and decision of usage on request only. The individual case permission by BCCM is obligatory.

Important:
Only original digital masters of the combination of BMW symbol with “BMW i” and “BMW M” may be used for the reproduction of this logo.

The spacing between the symbols may never be changed!
CONSTRUCTION OF THE BMW CLUB LOGO. PAIRING (BMW MOTORRAD).

Paired logos may be utilised only by clubs with a clear BMW Motorrad reference. Creation and decision of usage on request only. The individual case permission by BCCM is obligatory.

Important:
Only original digital masters of the combination of BMW symbol with “BMW Motorrad” may be used for the reproduction of this logo.

When it comes to BMW Club Logos with a BMW Motorrad pairing, the lines and letters of the BMW symbol in the fallback variant are finished in black instead of grey. The same applies to the two horizontal lines.

In case of BMW Club Logos with a BMW Motorrad pairing, the font “BMW Motorrad” is used for the name of the Club instead of “BMW Type Next”.

The spacing between the symbols may never be changed!
4. APPLICATION.

The following section describes various elements in detail based on practical examples.
## Application

Rules are defined for application sizes according to specific media. The logo sizes shown are recommended for standard formats (e.g. US letter, DIN sizes) and standard objects (e.g. membership card, t-shirts).

Additional sizes may only be generated for special applications in exceptional cases by reducing or enlarging the nearest standard size, depending on the technique being used.

### Logo width:

<table>
<thead>
<tr>
<th>Logo width</th>
<th>Applications</th>
</tr>
</thead>
<tbody>
<tr>
<td>20 mm (40% of original size)</td>
<td>business cards, membership cards with motif, give-aways</td>
</tr>
<tr>
<td>25 mm (50% of original size)</td>
<td>letterhead (A4 and US letter)</td>
</tr>
<tr>
<td>32 mm (64% of original size)</td>
<td>A4 brochures, caps, club badges, membership cards without a motif</td>
</tr>
<tr>
<td>40 mm (80% of original size)</td>
<td>A3 posters, t-shirts, stickers</td>
</tr>
<tr>
<td>50 mm (original size of the template)</td>
<td>A2 posters</td>
</tr>
<tr>
<td>62.5 mm (125% of original size)</td>
<td>A1 posters</td>
</tr>
</tbody>
</table>
1. Positioning
The BMW Club logo is to be placed in the corners of the format in question.

2. Free space
The optimum effect of the BMW Club logo will depend on the space surrounding it. For this reason a minimum spacing of 1.5 symbol diameters is to be observed from the margin, from other design elements, and from objects in image motives.

3. Background
The BMW Club logo always appears against a background, which contrast clearly with the club’s signet as well as the complete club logo. Colour fields and photos are also permissible in addition to black or white backgrounds; shades of grey and blue are, however, preferable.

4. Main and fallback version of the BMW Club logo
The “transparent” version of the BMW Club logo (white text, white lines, blue and white version of the BMW symbol) is to be used whenever possible. If not possible (e.g. in case a direct printing on the object is not possible or because of a pattern or restless background), please use the “fallback” version (BMW Club logo in a white box, please respect the dimensions, see page 14).

Do
- Protected space around the logo properly respected.
- Blue background differs from the blue used in the BMW symbol.
- Logo version with white box enables better contrast with the background.

Don’t
- The distances to the format edge and the dominant picture element are insufficient.
- Poor contrast, background colour and blue used in the BMW symbol too similar.
- Background colour too light. BMW symbol and text poorly visible.

White box covers the restless background.
APPLICATION OF THE BMW CLUB LOGO.
THE RIGHT REPRODUCTION TECHNIQUE FOR EVERY APPLICATION.

The examples shown are simulations and can only approximate the actual effect.

Reproduction techniques:
offset print, digital print
4-colour / CMYK
Application: print media

Reproduction technique: blind stamp
Application: print media
Minimum size: width 25 mm

Reproduction technique: etching in metal
Application: club badge
Minimum size: width 20 mm

Reproduction technique: screen printing without grid
Application: T-shirts, caps
Minimum size: width 20 mm
The identifier shows a club to be an official BMW Club. The use of the identifier is optional.

The identifier is set in BMW TypeNext Bold (BMW Motorrad Bold for Clubs who utilise a logo with BMW Motorrad pairing) and its font size is identical with that of the text in the BMW Club logo.

It will always appear as a single-line print and should preferably be printed in the colour of the text of the BMW Club logo (70% black or white).

Files of the identifier (transparent and fallback variant) are available from BCCM upon inquiry.

The positioning of the identifier will be at the same format edge than that of the BMW Club logo, but in the opposite corner. Due to this, logo and identifier are to be either left-aligned or bottom-aligned.

If narrow formats are used, make sure that the spacing between the BMW Club logo and the identifier is at minimum the size of the diameter of the BMW symbol. Should this not be the case, the identifier will have to be positioned at the other format edge or omitted altogether, where appropriate.

### Language

The identifier can be used in English or German.

**German**

Offizieller BMW Club.

**English**

Official BMW Club.

### Use

The identifier is only used in certain media:

- Print media
- Internet
- Membership card
- Correspondence

### Don't use

The identifier is not used in the following areas:

- Merchandising and lifestyle articles
- Give-aways
- Badges and pins
- Flags

---

Detailing the CI basics for official BMW Clubs.
**VISUAL WORLD.**
**DOING JUSTICE TO PREMIUM ASPIRATIONS.**

<table>
<thead>
<tr>
<th>Do</th>
<th>Don't</th>
</tr>
</thead>
<tbody>
<tr>
<td>The imagery reflects the <strong>premium claim</strong> of the BMW brand. It is real, powerful and vibrant.</td>
<td></td>
</tr>
<tr>
<td>Negative messages such as accidents and breakdowns are to be avoided. Images with political, racist or sexist content are not permitted.</td>
<td></td>
</tr>
<tr>
<td>All images are of <strong>high quality</strong>, thereby guaranteeing high-grade reproduction.</td>
<td></td>
</tr>
</tbody>
</table>
Value of materials and reproduction techniques:
When reproducing the BMW Club logo and the identifier on merchandising articles, care must be taken to ensure a high-quality finish. If there is a choice of differing reproduction techniques, the technique which provides the most high-quality reproduction of the symbol is used wherever possible.

Size of the BMW Club logo:
The BMW Club logo is most effective when applied in the correct size, not the largest possible size.

Main and fallback version of the BMW Club logo:
The “transparent” version of the BMW Club logo (white text, white lines, blue and white version of the BMW symbol) is to be used whenever possible. If not possible (e.g. in case a direct printing on the object is not possible or because of a pattern or restless background), please use the “fallback” version (BMW Club logo in a white box, please respect the dimensions, see page 14).
### Finding a Domain Name

The creation of domains for BMW Club websites is based on the nomenclature rules defined as follows:

<table>
<thead>
<tr>
<th>Country-specific Top-level domains (TLDs) and Generic Top-level domains (e.g. .com / .net / .info)</th>
<th>Do</th>
<th>Don’t</th>
</tr>
</thead>
<tbody>
<tr>
<td>The domain name should correspond to the club name featured in the club logo, replacing the spaces between the words with a dash (i.e. the words are not directly linked). It is mandatory that the term “bmw-club” (or “bmw-car-club”, “bmw-motorrad-club”, etc.) be included in the domain name.</td>
<td>bmw-club-samplecity.de</td>
<td>BMWClubSamplecity.de</td>

DIGITAL MEDIA.
CLEAR APPEARANCE WITH A WIDESPREAD IMPACT.

The BMW Club logo

A wraparound edge (protected space) of half the diameter of the BMW symbol must be respected up to the edges of all other objects.

Colours

The user interface background is always white (1).

User interface elements can be designed in shades of grey (3, 4, 5, 6, 7, 8).

The highlight or call-to-action colour is blue. It also serves as an indicator for active and selected states (9, 10).

The font colour is anthracite or white (1, 2).

Detailing the CI basics for official BMW Clubs.

Version 2.1.1 | Last revised July 2021 | Page 26
Profile- / channel name
Basically, the rules for domain names apply. If dashes or underscores instead of spaces are not permitted, directly linking the words is possible.

Profile pictures
The “transparent” BMW Club logo is to be used as profile picture. The title image (or an excerpt of it) shall be used as background. The used image detail must not be restless and it must be in a good contrast against the BMW Club logo to make the logo clearly recognizable.

Title images
For title images the rules for high-quality images mentioned on page 20 apply.

Circular profile pictures
The diameter of the profile picture corresponds 1.8 times the width of the BMW Club logo. The horizontal alignment is centered. The vertical alignment is based on the lower edge: The distance between the lower stroke of the BMW Club logo and the lower edge of the profile picture is 1.5 times the diameter of the BMW symbol.

Rectangular profile pictures
A wraparound edge (protected space) of at least half the diameter of the BMW symbol (top and bottom) and at least one diameter of the BMW symbol (left and right) must be respected up to the edges of the profile picture. The BMW Club logo shall be placed in the format of the profile picture as large as possible.

These rules, illustrated using the example of Twitter, apply analogously to all other social media channels.
If you have any questions, please contact BMW Club & Community (see page 30) Management for further information or help.

A4 letterhead

The mandatory minimum spacing from the edges is twice the diameter of the BMW symbol (x).
The left-hand margin – dependent on the position of the window on the envelope – is accordingly larger (5 x for DIN A4 format).

Our recommendation for the sender line in the window:
Typeface: Arial regular
Size: 6 pt
Character spacing 0
Colour: 70% black

Our recommendation for the recipient address and the main text:
Typeface: Arial regular
Type size: 10 pt
Line spacing: 11.5 pt
Character spacing 0
Type colour: 100% black

Our recommendation for the BMW Club name and the sender data:
Typeface: Arial bold / regular
Type size: 8 pt
Line spacing: 10.5 pt
Character spacing 0
Type colour: 70% black
CORRESPONDENCE.
STATIONERY IN HIGH-QUALITY FORMAT.

Business card size: 85 x 55 mm

A minimum spacing of one diameter of the BMW symbol (x) must always be observed from the edges.

Our recommendation for the name:
Typeface: Arial regular
Size: 9 pt
Line spacing: 7.3 pt
Character spacing 0
Colour: 70% black

Our recommendation for the other texts:
Typeface: Arial regular
Type size: 6 pt
Line spacing: 7.3 pt
Character spacing 0
Type colour: 70% black

The BMW Club logo may optionally be positioned on the reverse side of the card, centred and as large as possible (make sure to comply with the minimum spacing of one logo diameter required towards the edge!).

The logo on the front of the card may be omitted (e.g. for the benefit of a larger font size) in this specific case. No other logos are, however, permitted on the card.
Application

BADGES AND PINS. SMALL SIZE, BIG EFFECT.

Protected space
If the BMW Club Logo is utilised in the form of a full picture, it is essential for the impression given that it is not “squeezed” too tightly into the format. This is the reason why a wraparound edge (protected space) up to the edges of the object will have to be respected, which corresponds at minimum to half the diameter of the BMW symbol.

Visible stitching
If sewn on with visible stitching, this dimension does not refer to the distance from the edge of the badge, but rather to the distance from the seam.

Coloured background
If badges are applied on coloured background, please always use the fallback version of the BMW Club logo (white box).
MEMBERSHIP CARD. PROOF OF A POWERFUL IDENTITY.
